Thorough, Up-To-Date. Individual Instruction.

WE strive by thorough methods, based on the best modern educational ideals, to give the business men of the City intelligent, accurate and rapid assistants, who know something more than the mere mechanics of their work. Mechanical help is dear at any price, and it is our great aim to remedy this defect by drawing out in our students those original forces possessed by nearly every young man and woman.

LEEK GEORGE W., 20 O'Farrell

Exclusive owner and user of the Dental Electric Vibrator for Painless Dentistry. All other electric appliances for painlessly extracting teeth are intrusions on my patent or absolutely worthless, yet dentists humbug the public by advertising that they have invented electric mouth lamps, engines, motors, etc. There are hundreds of varieties, and all first-class dentists use them for light and power. I received eight first prizes at Mechanics' and State Fairs for best dentistry. Bridge-work, crowns, fillings, teeth without plates, and flesh-colored plates. Painless fillings and extractions guaranteed when desired. Prices as low as the lowest and work better than the best. No students or snide dentists employed. Personally attend to each operation. Examination free.
